

Name: _____

SYMPTOM SCRAMBLE

Children that have coeliac disease but don't yet know, may be poorly and have different symptoms.

Some children may have one or two, and others may have more. This is because if they eat gluten their tummy is damaged so they can't get all the goodness out of food, and this affects different people in different ways. Some children may feel tired and weak, others may have a poorly stomach.

Unscramble these words which are common symptoms of coeliac disease

- 1. TEIRD _ _ _ _ _
- 2. SKIC _ _ _ _
- 3. WKAE _ _ _ _
- 4. HDEAAHCE _ _ _ _ _ _ _
